

IloTA™ MES Platform

DB2 Quick Start Guide

Follow these instructions to connect to the DB2 database on your IloTA™.
Communicate with your DBA for help using the database.

Install DB2 Client

After Downloading the 'DB2Client.zip' folder from www.IloTA.net/resources, Open the 'DB2 Client' folder and Run 'setup.exe'.

Click 'Install a Product' on the left.

Click [Install New].

Follow the DB2 Setup wizard.

Click [Next >] (I) accept... [Next >] (I) Compact [Next >] [Next >] [Next >] [Finish]

Wait for installation to complete.

Your IloTA Manager™ software is ready to connect to the IloTA™ DB2 Database.

If you have no DB2 client, DBeaver is free. Click [here](#) to download.
